10. Anife Sabedinovska - Institute for Roma (Germany)
11. Mustafa Ahmed – Nordic NGO (Sweden)
12. Eunice Molshe – Nordic NGO (Sweden) – online participation on the second day

Welcome and Introduction

Genç Osman İlhan, the host of the meeting in Istanbul opened the meeting with welcoming and war greetings. He explained that it was the last face to face meeting of the project, and started a presentation on the previous tasks, outputs and meetings throughout the project.

The presentation of Genç Osman İlhan created a nostalgic atmosphere for the participants. All participants noted on how much work they have created and claimed their positive remarks on the quality work they have created so far.

The meeting is presumed with Büşra Tombak İlhan (Yildiz Technical University, project coordinator)'s presentation on the required documents of the budget, certificates, signature lists, and reports on the Google Drive folder. The budget and timesheets were explained, the format of the reports are discussed.

The meeting continued with individual presentations of the project partners. Each partner presented their work so far, including especially the small-scale meetings. After each presentation, the quality of the work, to-be-revised points (if any) were discussed.

After the individual presentations, the discussion on the project platform is started. The participating member of Nordic NGO was not knowledged on the platform task. Thus an online meeting is started with the other members of Nordic. The platform still lacked practicality and user-friendly format, and the modules were not uploaded although they were assured to be completed in the previous meetings. Nordic NGO introduced a new portal with the project partners that was more practical and user-friendly. They assured better improvement of the new portal in the week following the meeting.

The meeting is finalized with a dinner with all participants from partner organizations. The dinner provided a social and positive atmosphere to conclude the meeting face to face. The partners decided to initiate more projects in cooperation on comics and migration.
