1. Wendy Muleshe – Nordic NGO (Sweden)

Welcome and Introduction

Yunus Emre Ömür, the host of the meeting in Istanbul opened the meeting with welcoming and war words. He explained the agenda of the meeting, the objectives, and introduced the meeting location and offered to feel welcome.

The meeting continued with the project coordinator organization's explanations and overview of the project tasks and responsibilities. Genç Osman İlhan from Yildiz Technical University started the discussion on the previous activities and outputs of the project.

The teacher training activity and student implementation activities in Germany, Netherlands, Sweden, Türkiye and Ukraine were discussed one by one with the presentation of each parner's presentations. The partners presented the teacher training and student implementation activities with pictures, proofs and evaluation of the activities.

The next discussion topic was the project platform. Genç Osman İlhan (Yildiz Technical University, project coordinator) started the discussion by opening the project platform. All partners actively discussed the points, format, visuals, and practicality of the project platform. Nordic NGO assured the successful completion of the project platform in one month.

The first day of the meeting is finalized with a dinner with all participants from partner organizations. The dinner provided a social and comfortable atmosphere for the participants to cooperate, socialize and improve their relationships.

The second day of the meeting is started with Büşra Tombak İlhan (from Yildiz Technical University)'s presentation on Work Package 4: From Action to Recommendation. All partners are informed about the work plan and the work package requirements. Büşra Tombak İlhan introduced the meeting discussion questions prepared collaboratively before the meeting, the strategy of the small-scale meetings, minumum participant number to the small-scale meeting and the objectives. The overall format and the questions are discussed with active participation of all participants to the meeting.

After discussion Work Package 4, project partners planned the final conference (WP5.A5) in Istanbul. Participants determined to cooperate with an academic international conference or symposium with academic so that scholars, academicians, teachers, students, and school leaders would participate. Through this type of collaboration, the outputs of the final conference would also produce scientific results and would be disseminated to the scientific communities.
